Overview

This document aims to supply a plan in order to develop and design the SqueakyClean informational website. A list of tasks is presented that are required to be completed. Each task is presented as an amalgamation of the following fields:

- A **description** of the task to be completed
- An **estimate** of the amount of time required to complete every task, measured in hours or part thereof
- The actual **amount of time** spent on the task (to be completed as development progresses), which is split into:
 - Time spent on **documentation**
 - Time spent on **coding**
